Mohamed Lawani Jr.

Software Engineer

Professional Experiences

Software Engineer @ DocstreamSolution

April - December 2021 // Monastir, TUNISIA.

- ▷ An internship for my End Of Studies Project (M.S. Degree)
- ▷ Developed a microservice that will be used, as an API gateway, by other applications of the company.
- ▷ Developed another web application that will help the company to have a global view of all its applications with some graphs.
- ▷ Implemented the unit test, integrated test and others tests.
- ▷ C#, .Net Core, Sql Server, xUnit

Web Developer @ DocstreamSolution

August - September 2020 // Monastir, TUNISIA.

- ▷ A summer internship.
- ▷ Developed a microservice module that will be integrated into an electronic document management (EDM) already created by the company.
- ▷ Implemented with the MVC architecture.
- ▷ C#, .Net Core, Sql Server.

Android Developer @ Bongest

August - September 2019 // Monastir, TUNISIA

- ▷ A summer internship.
- ▷ Worked in collaboration with another developer and I was in charge of the mobile part for a real estate assets management platform.
- ▷ JAVA, Android Studio.

Web & Mobile Developer @ Bongest

February - June 2019 // Monastir, TUNISIA.

- ▷ An internship for my End Of Studies Project (B.S. Degree).
- ▷ Developed a web / mobile platform for a vehicle fleet management.
- ▷ Was in charge of fully developing the platform, the design and the choice of architecture, under the supervision of a senior.
- ▷ Developed a side web API to be used by the mobile app.
- ▷ PHP, Laravel, NativeScript, MySql, Firebase, Google Maps API.

Projects

Fleet App : Web & Mobile // *www.fleetapp.tk*

A platform for a vehicle fleet management. It's a new and short version of my end of studies project (B. S. Degree) developed with new stack.
- ▷ C#, .Net Core, Angular, Flutter, Sql Server, Firebase, MapBox API.

Ride-Hailing App : Mobile

Two android apps, one for the driver and one for the rider. Both of them can see, on a map, in real-time, their location while they are traveling.
- ▷ JAVA, Android Studio, Firebase, Google Maps API.

Construction App : Mobile

A mobile app that helps a contractor to manage construction operations on his sites. From the equipment management to employee management and their schedule management.
- ▷ JAVA, Android Studio, Firebase.
